

Jose Urena

Most Recently at Lambda School

Recommended by:

Jose is

Haroon Khan, Peer / Colleague,

He is hardworking , self starter person, one can trust on him. He is capable of going above and beyond.

Paul Teeter, Peer / Colleague,

Jose is funny and engaging, often quite good at breaking ice and beginning a conversation. Beyond his interpersonal skills as a friendly and talkative person, he is a hard worker and a dang good data scientist. He is never satisfied with mediocre, but searches out every avenue to determine what the best course of action is. Not only is he a hard worker, he's also proficient and retains knowledge very well (I'm jealous, actually!).

Joanne Middour, Peer / Colleague,

Jose is thirsty for knowledge. I do not believe there is a challenge that he would not except, and excel at, when learning a new language, framework, etc. He is great at bringing humor to the table in stressful situations to ease the tension in the room. When Jose starts something, he is determined to make sure the task is completed in a satisfactory manner before proceeding to the next task at hand. Jose is inquisitive, productive, hardworking, and a team player. He would make a great asset to any company that he chooses to work for.

Strengths

References choose top strengths from a randomized list. Strengths with at least '+ 2' are highly predictive.
